Director's Report

Your directors submit the financial report of the company for the financial year ended 30 June 2015.

Principal Business Activities

During the financial year ended, the ECO Group's primary activity was care and maintenance of the Kiri Park property.

Directors

The names of the directors who held office during or since the end of the period are:

Sydney J. Chesson
Thomas F. Henn
Simon JS Chesson

Since the financial period ended 30 June 2015, there have been no significant after balance date events.

Directors Information

Sydney Chesson

M.B.A, C.RE.M, C.S.M, F.A.I.C.D
Chairman

Mr Chesson has been awarded a Master of Business Administration degree from the University of Notre Dame Australia, where he was admitted to the Vice Chancellor's list for academic excellence. He is a licensed real estate agent and business broker, and a licensed finance broker. He has extensive experience in importing and exporting, production and manufacturing. He has over 25 years experience in real estate and over 35 years experience in business and commercial activities.

As a Fellow of the Australian Institute of Company Directors, Mr Chesson has considerable experience as a Director of listed and unlisted public companies, unlisted property trusts, managed investment schemes, and several private companies.

Mr Chesson is the Chairman of Environmental Carbon Offset Ltd, Environmental Forest Farms Management Pty Ltd, EFF Timber Pty Ltd, Powton Land Holdings Pty Ltd and A&N Enterprises Pty Ltd.

Simon Chesson

M.B.A (UWA), CPA, CFP, B.Comm, C.S.M, F Fin
Director

Mr Simon Chesson has been awarded the degrees of Master of Business of Administration, and a Bachelor of Commerce. He is a qualified Certified Practising Accountant, a qualified Certified Financial Planner, and a fellow of the Financial Services Institute of Australasia.

Mr Simon Chesson has over 15 years experience in business, accounting, and the property industry. He has extensive experience as a Director and company secretary of numerous public and private companies.

Mr Simon Chesson is also a Director of Environmental Carbon Offset Ltd, Environmental Forest Farms Management Pty Ltd, EFF Timber Pty Ltd, Powton Land Holdings Pty Ltd and A&N Enterprises Pty Ltd.

Thomas Henn

GAICD, FTIA, TEP, MTax, LLB (UWA), LLB (Munich)

Director

Before emigrating from Germany to Australia in the mid 90s, Mr Henn practiced as a lawyer in Munich. After finishing a law degree in Australia, Mr Henn has worked for a Big 4 Accounting Firm and various law firms in Perth in tax and commercial law. He works as a tax / commercial lawyer for a Perth Law Firm. He was Managing Director of one of the first listed Australian Law Firms.

Mr Henn has a Master of Taxation from the University of Western Australia and a Bachelor of Laws Degree. He is a Graduate Member of the Australian Institute of Company Directors and a Fellow of the Taxation Institute of Australia. He has lectured for years in taxation at various Universities in Western Australia.

Mr Thomas Henn is also a Director of Environmental Carbon Offset Ltd, Environmental Forest Farms Management Pty Ltd, EFF Timber Pty Ltd, Powton Land Holdings Pty Ltd and A&N Enterprises Pty Ltd.

Directors' Meetings

During the year, the following meetings were held:

Director	No. of Meetings Eligible to Attend	No. of Meetings Attended
Sydney Chesson	1	1
Thomas Henn	1	1
Simon Chesson	1	1

A directors meeting was held on 24 July 2014.

Directors and Senior Executives Remuneration

Disclosure relating to Directors and Executive Officers' remuneration has been included in Note 17 of the Financial Report.

Indemnification and Insurance of Officers and Auditors

The Company has not, during or since the financial year, in respect of any person who is or has been an office or auditor of the Company or of a related body corporate:

- Indemnified or made any relevant agreement for indemnifying against a liability, including costs and expenses in successfully defending legal proceedings; or
- Paid or agreed to pay a premium in respect of a contract insuring against a liability for the costs or expenses to defend legal proceedings

Directors' Interests

The Directors' of the Company hold the following interest in fully paid ordinary shares and partly paid ordinary shares in the Company as at the date of this Report:

Fully Paid Ordinary Shares

Director	Direct Holding	Indirect Holding	Total
S. Chesson	NIL	55,094	55,094
T. Henn	NIL	544	544
Simon Chesson	NIL	55,453	55,543
TOTAL	NIL	111,091	111,091

Directors' interests in contracts and related party transactions are detailed in note 20 of the Financial Report.

Options

No options to acquire shares in the Company have been granted during this financial year and there were no options outstanding at the end of the financial year.

Employees

There were no employees of the Company during the year or at year end.

Rounding of Amounts

The amounts in the Financial Report and the Directors' Report have been rounded to the nearest dollar.

Auditor's Independence Declaration

The lead auditor's independence declaration under section 307C of the Corporations Act 2001 is set out on page 8 for the end of financial period 30 June 2015.

This report is signed in accordance with a resolution of the Board of Directors.

A handwritten signature in black ink, appearing to read 'Simon Chesson', with a large, stylized initial 'S'.**Simon Chesson**

Notes to the Financial Statement

For the period 1 July 2014 to 30 June 2015

1. Basis of preparation

These general purpose financial statements for financial period ended 30 June 2015 have been prepared in accordance with requirements of the Corporation Act 2001 and Australian Accounting Standards and Interpretations of the Australian Accounting Standards Board.

Accounting Standards

Australian Accounting Standards set out accounting policies that the AASB has concluded would result in a financial report containing relevant and reliable information about transactions, event and conditions. Compliance with Australian Accounting Standards ensures that the financial statements and notes also comply with International Financial Reporting Standards. Material accounting policies adopted in the preparation of this financial report are presented below and have been consistently applied unless otherwise stated.

The financial report covers Environmental Carbon Offset Limited ("ECO") as an economic entity. ECO is an unlisted public company, incorporated and domiciled in Australia. Its registered office is located at Level 1 AustAsia House, 412-414 Newcastle Street, West Perth WA 6005.

(a) Reporting Basis and Conventions

The financial report has been prepared on an accruals basis and is based on historical costs modified by the revaluation of selected non-current assets, financial assets and financial liabilities for which the fair value basis of accounting has been applied

(b) Income Tax

The income tax expense (income) for the year comprise current income tax expenses (income) and deferred tax expense (income).

Current income tax expense charged to the profit or loss is the tax payable on taxable income calculated using applicable income tax rates enacted, or substantially enacted, as at reporting date. Current tax liabilities (asset) are therefore measured at the amounts to be paid to (recovered from) the relevant taxation authority.

Deferred income tax expense reflects movements in deferred tax asset and deferred tax liability balances during the year as well unused tax losses.

Current and deferred income tax expense (income) is charged or credited directly to equity instead of the profit or loss when the tax relates to items that are credited or charged directly to equity.

Deferred tax assets and liabilities are ascertained based on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Deferred tax assets also result where amounts have been fully expensed but future tax deductions are available. No deferred income tax will be recognised from the initial recognition of an asset or liability, excluding a business combination, where there is no effect on accounting or taxable profit or loss.

Deferred tax assets and liabilities are calculated at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on tax rates enacted or substantively enacted at reporting date. Their measurement also reflects the manner in which management expects to recover or settle the carrying amounts of the related asset or liability.

Deferred tax asset relating to temporary differences and unused tax losses are recognised only to the extent that it is probable that future taxable profit will be available against which the benefits of the deferred tax asset can be utilised.

Where temporary differences exist in relation to investment in subsidiaries, branches, associates, and joint ventures, deferred tax assets and liabilities are not recognised where the timing of the reversal of the temporary difference can be controlled and it is not probable that the reversal will occur in the foreseeable future.

Current tax assets and liabilities are offset where a legal enforceable right of set-off and it is intended that net settlement or simultaneous realisation and settlement of the respective asset and liability will occur. Deferred tax assets and liabilities relate to income taxes levied by the same taxation authority on either the same taxable entity or different taxable entities where it is intended that net settlement or simultaneous realisation and settlement of the respective asset and liability will occur in future periods in which significant amounts of deferred tax assets or liabilities are expected to be recovered or settled.

(c) Investment

Investments brought to account are at cost or at valuation. The carrying amount of investments is reviewed annually to ensure it is not in excess of the recoverable amounts of the investments.

(d) Interest and Dividends

Interest is brought to account in the profit and loss statement when earned. Dividends are brought to account in the profit and loss statement when received.

(e) Property, Plant and Equipment

Each class of property, plant and equipment is carried at cost or fair value less, where applicable, any accumulated depreciation and impairment losses.

Property

Freehold land and buildings are shown at their fair value (being the amount for which an asset could be exchanged between knowledgeable willing parties in an arm's length transaction), based on a periodic, but at least triennial, valuations by external independent valuations, less subsequent depreciation for buildings.

Any accumulated depreciation at the date the date of revaluation is eliminated against the gross carrying amount of the asset and the net amount is restated to the re-valued amount of the asset.

Plant and Equipment

Plant and equipment are measured on the cost basis.

The carrying amount of plant and equipment is reviewed annually by directors to ensure it is not in excess of the recoverable amount from these assets. The recoverable amount is assessed on the basis of the expected net cash flows that will be received from the assets employment and subsequent disposal. The expected net cash flows have been discounted to their present values determining recoverable amounts.

The cost of fixed assets constructed within the economic entity includes the cost of materials direct labour, borrowing costs and an appropriate proportion of fixed and variable overheads.

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the group and the cost of the item can be measured reliably during financial period in which they are incurred.

Depreciation

The depreciation amount of all fixed assets including building and capitalized lease assets, but excluding freehold land, is depreciated on a straight line bases over their useful lives to the economic entity commencing from the time the asset is held ready for use. Leasehold improvements are depreciated over the shorter of either the unexpired period of the lease or the estimated useful lives of the improvements.

The depreciation rates used for each class of depreciation assets are:

Class of Fixed Assets	Depreciation Rate
Building	2%
Leasehold Improvements	4-5%
Plant and Equipment	5-33%
Plant and Equipment Leased to External Entities	10-20%
Leased Plant and Equipment	15%

The asset's residual values and useful lives are reviewed, and adjusted if appropriate, at each balance sheet date.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Gains and losses on disposal are determined by comparing proceeds with the carrying amount. These gains and losses are included in the income statement. When revalued assets are sold, amounts included in the revaluation reserve relating to the assets are transferred to retained earnings.

(f) Leases

Leases of fixed assets where substantially all the risks and benefits incidental to the ownership of the asset, but not the legal ownership that are transferred to entities in the economic entity are classified as finance leases.

Finance leases are capitalised by recording an asset and a liability at the lower of the amounts equal to the fair value of the leased property or the present value of the minimum lease payment, including any guaranteed residual values. Lease payments are allocated between the reduction of the lease liability and the lease interest expense for the period.

Leased assets are depreciated on a straight line bases over the shorter of their estimated useful lives or the lease term.

Lease payments for operating leases, where substantially all the risk and benefits remain with the lessor, are charged as expenses in the periods in which they are incurred.

Lease incentives under operating leases are recognized as a liability and amortised on a straight line basis over the life of the lease term.

(g) Cash and Cash Equivalents

Cash and cash equivalents includes cash on hand, deposits held at call with banks, other short-term highly liquid investment with original maturities of three months or less, and bank overdrafts. Bank overdrafts are shown within short term borrowings in current liabilities on the balance sheet.

(h) Financial Instruments

Financial instruments are measured initially at cost on trade date, which includes transaction cost, when the related contractual rights or obligations exist. Subsequent to initial recognition these instruments are measured as set out below.

Financial assets at fair value through profit and loss

A financial asset is classified in this category if acquired principally for the short term, or if so designated by management and within the requirement of AASB 1 39: Recognition and Measurement of Financial Instruments. Derivatives are also categorised as held for trading unless they are designated as hedges. Realised and unrealized gains and losses arising from changes in fair value of these assets are included in the income statement in the period in which they arise.

Loans and receivables

Leans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market and are subsequently measured at amortised cost.

Held to maturity investment

These investment are non-derivative financial assets that are either no suitable to be classified into other categories of financial assets that have fixed maturities and fixed or determinable payments, and it is the company's intention to hold these investments to maturity. They are subsequently measured at amortised cost.

Available for sale financial assets

Available for sale financial assets are non-derivative financial assets that are either not suitable to be classified into other categories of financial assets due to their nature, or they are designed as such by management. They comprise investment in the equity of other entities where there is neither a fixed maturity nor fixed or determinable payments.

Financial Liabilities

Non-derivative financial liabilities are subsequently measured at amortised cost

(i) Impairment

At each reporting date, the consolidated entity reviews the carrying values of its tangible and intangible assets to determine whether there is any indication that those assets have been impaired. If such an indication exists, the recoverable amount of the asset, being the higher of the asset's fair value less costs to sell and value in use, is compared to the asset's carrying value. Any excess of the asset's carrying value over its recoverable amount is expensed to the income statement.

At each reporting date, the group reviews the carrying value of its tangible assets to determine whether there is any indication that those assets have been impaired. If such an indication exists, the recoverable amount of the asset, being the higher of the asset's fair value less costs to sell and value in use, is compared to the asset's carrying value, Any excess of the asset's carrying value over its recoverable amount is expensed to the income statement.

Impairment testing is performed annually for goodwill and intangible assets with indefinite lives.

Where it is not possible to estimate the recoverable amounts of an individual asset, the group estimate that the recoverable amount of the cash generating unit to which the asset belongs.

(j) Investment in Associates

Investment in associate companies are recognised in the financial statement by applying the equity method of accounting. The equity method of accounting recognised the group's share of post-acquisition reserves of its associates

(k) Research and development

Expenditure during the research phase of a project is recognised as an expense when incurred. Development costs are capitalised only when technical feasibility studies that the project will deliver future economic benefits and these benefits can be measured reliably.

Development cost have a finite life and are amortised on a systematic basis matched to the future economic benefits over the useful life of the project.

(l) Revenue Recognition

Revenue is measured at the fair value of the consideration received or receivable after taking into account any trade discounts and volume rebates allowed. Any consideration deferred is treated as the provision of finance and is discounted at a rate of interest that is generally accepted in the market for similar arrangements. The difference between the amount initially recognised and the amount ultimately received is interest revenue.

Revenue from the sale of goods is recognised at the point of delivery as this corresponds to the transfer of significant risk and rewards of ownership of the goods and the cessation of all involvement in those goods.

Interest revenue is recognised using the effective interest rate method, which, for floating rate financial assets, is the rate inherent in the instrument. Dividend revenue is recognised when the right to receive a dividend has been established.

All revenue is stated net of the amount of goods and service tax (GST).

(m) Borrowing Costs

Borrowing costs directly attributable to the acquisition, construction or production of assets that necessarily take a substantial period of time to prepare for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale.

All other borrowing costs are recognised as income in the period in which they are incurred

(n) Goods and Service Tax

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Tax Office. In these circumstances the GST is recognized as part of the cost of acquisition of the asset or as part of an item of the expense. Receivables and payables in the balance sheet are shown inclusive of GST

Cash flows are presented in the cash flow statement on a gross basis, except for the GST component of investing and financing activities, which are disclosed as operating cash flows.

(o) Comparative Figures

When required by Accounting Standards, comparative figures have been adjusted to conform to changes in presentation for the current financial year

(p) Receivables

Trade accounts receivables, amounts due from related parties and other receivables represent the principle amount due at balance date plus accrued interest and less, where applicable, any unearned income and provision for doubtful accounts.

(q) Provisions

Provisions are recognised when the company has a legal or constructive obligation, as a result of past events, for which it is probable that an outflow of economic benefits will result and that outflow can be reliably measured.

(r) Employee Benefits

Provision is made for the company's liability for employee benefits arising from services rendered by employees to balance date. Employees benefits that are expected to be settled within one year have been measured at the amounts expected to be paid when the liability is settled. Employee benefits payable later than one year have been measured at the present value of the estimated future cash outflows to be made for those benefits. Those cash flows bonds with terms to maturity that match the expected timing of cash flows.

Presentation of Financial Statements

AASB 101 prescribes the contents and structure of the financial statements. Changes reflected in this financial report include:

- the replacement of Income Statement with Statement of Comprehensive Income. Items of income and expense not recognised in profit or loss are now disclosed as components of 'other comprehensive income'. In this regard, such items are no longer reflected as equity movements in the Statement of Changes in Equity;
- the adoption of the single statement approach to the presentation of the Statement of Comprehensive Income;
- other financial statements are renamed in accordance with the Standard; and
- presentation of a third Statement of Financial Position as at the beginning of a comparative financial year where relevant amounts have been affected by a retrospective change in accounting policy or material reclassification of items.

Notes to the Financial Statement

For the period 1 July 2014 to 30 June 2015

	Consolidated Group		The Company	
	30 June 2015	30 June 2014	30 June 2015	30 June 2014
	\$	\$	\$	\$

Directors' Declaration

The directors of the company declare that:

1. The financial statements and notes, as set out on pages 9 to 33:
 - a. comply with Accounting Standard AASB 134: Interim Financial Reporting, and the Corporations Regulations; and
 - b. give a true and fair view of the company's financial position as at 30 June 2015, and of its performance for the year ended on that date.
2. In the directors' opinion, there are reasonable grounds to believe that the company will be able to pay its debts as and when they become due and payable.

This declaration is made in accordance with a resolution of the Board of Directors.

A handwritten signature in black ink, appearing to read 'Simon Chesson', with a large loop at the end of the signature.

Simon Chesson
Director

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF ENVIRONMENTAL CARBON OFFSET LIMITED

Report on the financial report

We have audited the accompanying financial report of Environmental Carbon Offset Limited its and Controlled Entities, which comprises the balance sheet as at 30 June 2015, and the income statement, statement of changes in equity and cash flow statement for the year ended on that date, a summary of significant accounting policies and other explanatory notes and the directors' declaration of the consolidated entity comprising the company and the entity it controlled at the year's end or from time to time during the financial year.

Directors' responsibility for the financial report

The directors of the company are responsible for the preparation and fair presentation of the financial report in accordance with Australian Accounting Standards (including the Australian Accounting Interpretations) and the Corporations Act 2001. This responsibility includes establishing and maintaining internal control relevant to the preparation and fair presentation of the financial report that is free from material misstatement, whether due to fraud or error; selecting and applying appropriate accounting policies; and making accounting estimates that are reasonable in the circumstances.

Auditor's responsibility

Our responsibility is to express an opinion on the financial report based on our audit. We conducted our audit in accordance with Australian Auditing Standards. These Auditing Standards require that we comply with relevant ethical requirements relating to audit engagements and plan and perform the audit to obtain reasonable assurance whether the financial report is free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial report. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial report, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial report in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the directors, as well as evaluating the overall presentation of the financial report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Independence

In conducting our audit, we have complied with the independence requirements of the Corporations Act 2001. We confirm that the independence declaration required by the Corporations Act 2001, provided to the directors of Environmental Carbon Offset Limited, would be in the same terms if provided to the directors as at the date of this auditor's report.

Auditor's Opinion

In our opinion:

- a) The financial report of Environmental Carbon Offset Limited and its Controlled Entities is in accordance with the Corporations Act 2001, including:
 - i) giving a true and fair view of the company's and consolidated entity's financial position as at 30 June 2015 and of their performance for the year ended on that date; and
 - ii) complying with Australian Accounting Standards (including the Australian Accounting Interpretations) and the Corporations Regulations 2001.
- b) The financial report also complies with International Financial Standards as disclosed in Note 1.
